Questions to Ask Before Starting an SEO Audit

1. Any previous SEO work

2. If yes, any reports from previous work

3. What are your goals / What do you hope to get from this audit

4. What are most important pages & products/services

5. What other advertising have they been using / current marketing strategy

6. Are you currently tracking your website statistics

7. Is there anything I missed that you think I should know?
